ABOUT THE INSTITUTE

Ideal Institute of Management and Technology was setup in 1999 under the aegis of New Millennium Education Society. The NAAC accredited institute holds a commendable position as premier Institute in imparting B.A. LL.B. approved by Bar Council of India, of Guru Gobind Singh Indraprastha University, Delhi along with BBA & BBA (CAM). Ideal Institute of Management and Technology is committed to be an academic Institution of excellence.

Activities held at the institute are a reflection of the resolve towards perfection instilled by the founding father Late Shri Rakesh Aggarwal whose vision was to develop the institute into a centre for excellence in professional education.

The aim of the institute is to cultivate in its students high moral standards coupled with academic excellence to promote market-oriented skill development and upgradation that would help in serving the needs of the society.

The institute has proven itself over the years as its students have put on record their success stories in Civil Services examination, Judiciary, JAG & also as gold medalists in law as well as management courses in the entire University.

ABOUT THE COMPETITION COMMISSION OF INDIA (CCI)

The Competition Commission of India (CCI) at New Delhi is a regulatory body established by the Government of India. The duty of the Commission is to carry out the objectives enumerated under the Competition Act, 2002, i.e., to prohibit anti-competitive agreements, abuse of dominant position by enterprises and regulate combinations (acquisition, acquiring of control and M&A), which cause or are likely to cause an appreciable adverse effect on competition within India. The broad objective of the Act is to create and sustain fair competition in the economy that will provide a 'level playing field' to the producers and make the markets. To this end, the mandate of the CCI includes eliminating practices having adverse effect on competition; inspiring businesses to be fair, competitive and innovative; protection of the interests of consumers, and ensuring freedom of trade in the markets of India. To achieve its objectives, the Commission engages in wide-ranging advocacy programmes like competition assessment of policies and legislations by collaborating with educational institutions, conducting training sessions, panel discussions and conferences on issues in competition law, offering internship opportunities to students and also organizing national level essay writing competitions.

WORKSHOP OUTLINE

“A Holistic overview of the Competition Law and the progressive outlook of the 12 years of working of the Competition Commission ”

In a laissez-faire economy, the invisible hands of the market forces are basically able to address the distortions, if any. However, the modern economies are not laissez faire economies and therefore, distortions in the market are more often not a result of interaction of competitive forces, but a well-planned strategy of market players who are able to exercise control. In such a scenario, it is important for the state to monitor the markets with a view to keep an eye on any type of impediments and distortions and correct them. The law which takes cognizance of such situations is the competition law and the institution that oversees the functioning of the markets is the competition regulator. The theoretical aspects are covered in the classrooms but to give a holistic idea it is very much necessary to expose the students with the practicalities of the same.

Objective:

To understand the need and rationale for competition law from a practical perspective and to appreciate the working of the commission alongside its progressive development.

Expected Outcome:

- To acquire a critical understanding of competition law
- To understand and appreciate the goals of competition law
- To understand, explain and apply the main prohibitions of Competition Law;
- To gain an practical outlook of the working of the Competition Commission
